Searching for the best candidates for your landscape? This spring, Texas SmartScape™ plants hope to win your vote. These plants are native or adapted to North Central Texas, so they can thrive—come rain or shine—with little to no pesticides or fertilizers and less water. This means you can save money and still have a beautiful yard. Some of these plants also attract birds, bees, and butterflies.

Come to one of the plant sales hosted by member cities of the Texas SmartScape program and participating retailers to get a deal on select Texas SmartScape plants. You can also get ideas and tips for landscaping by talking with a master gardener, plant expert, or irrigation specialist. Most locations will have fun events for kids too! For more information, visit www.txsmartscape.com.

All Events Take Place 8 a.m. to 12 p.m.
